Summary

I am a full stack web developer having rich experience in software development. I worked as a full-stack developer for several local companies from small to early startups. My deep full-stack experience includes Python and Frameworks such as Django and Flask Also, I have good knowledge of Javascript-based Frontends like Angular, Vue, and React.js, and Ruby on Rails. Also, I am familiar with the various Javascript libraries: Jquery, Google Map API, ArcGIS, D3, Plotly.js, Leafly.js, Chart.js, HighChart.js I strive to achieve quality, correctness, performance, and maintainability in all products I write. I believe the application of solid software engineering principles is imperative and allows me to be flexible enough to handle any sort of programming task. I have experienced several online services – AWS, GCP, Firebase, Azure, Github, Trello and Notion
